

Technical/Quality Review and Disposition Statement

RegenMed DDIN #: 24015		Cross-Reference #: 567542	
Graft ID #s: FRZ IRR (001-018) FDIRR (019-020) FD-24-011, IR-24-010			
Technical and Quality Review Elements		Reviewed By/Date	
		Technical	Quality
1.	Confirmation of Donor Suitability, Verification of Completed QC/QA Review, Medical Director Donor Suitability Review and Release for Processing have been reviewed and directives implemented. Infectious disease testing results are complete and acceptable. For tissue intended for non-transplant use (research/education), consent has been confirmed ☐ For U.S. distribution suitability, all infectious disease tests were performed by VRL ☒	MM 09-15-24	1
2.	All Microbiology Results (e.g. post-recovery, pre-processing, packaging) and any other tests generated (e.g. RMC, EM, etc.) are complete and acceptable.	N 11-	LC 11-29-24
3.	Tissues Processed and Final Labeling have been inspected. Labeling is accurate and grafts are consistent with requirements.	MM 11-27-24	LC 12-05-24
4.	Recorded Lot Numbers & Expiration Dates (Recovery & Processing) are complete and accurate.		LC 11-29-24
5.	Processing Records are complete, accurate, and in accordance with SOPM.	MM 11-27-24	1
6.	Time Limits and Technical Specifications (e.g. shipping time limits and temperature parameters, processing time limits) are verified and acceptable.		LC 11-29-24
7.	Traceability of tissues recovered and grafts produced/discarded from each tissue have been reviewed. Verification that location of tissue is tracked throughout process.	MM 11-27-24	LC 11-29-24
8.	Irradiation Dosimetry Record has been reviewed and deemed acceptable.		
9.	Skin Quality Control Results (DNA Assay, GAG Assay, and Microbiological results) are complete and acceptable.	N/A	N/A
10.	QIRs related to the Safety or Quality of Tissue reviewed, and resolution and corrective actions have been verified. INC#: CT-60, 263 Status: open , closed		1
Tissue Disposition and Release Statements			
The technical elements listed were reviewed and found to be acceptable. FreezerPro is accurate and complete to date.		Technical Review - Signature & Date:	
QA Review performed and acceptable according to the SOPM. Choose one of the following options.		Not Performed and/or Unacceptable according to the SOPM.	
☒ RELEASE TISSUE FOR TRANSPLANTATION ☐ Restrictions (list in Comments)		☐ DO NOT RELEASE TISSUE TO DISTRIBUTION (initiate MP-F-018)	
QA Signature & Date:		QA Signature & Date:	
☐ RELEASE TISSUE FOR NON-TRANSPLANT PURPOSES ☐ Research ☐ Education ☐ Sample
